DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Sinor
US6722315.

Regarding claim 1, Sinor discloses a first housing portion 102 attached to a door 100; a group of sidewall panels 106, 108, 110, 118, 120, 122 retained in the first housing portion 102 when apparatus is in a folded up condition; a group of roof panels 104; a second housing portion (the edge of roof panel 104) attached to said first housing portion, and roof-to-sidewall securing means for securing the roof panels to the sidewall panels (col 4, lines 35-53).

Regarding claim 5, Sinor discloses a first lock member 304 and a second lock member 406.

Allowable Subject Matter
